

School Bus Safety “K” Training Program

Kindergarteners started the school year more confident with getting on the bus. Thanks to the Transportation Department for initiating a school bus safety training for incoming kindergarteners and their parents in August.

“The program provided a chance for our youngest and newest students to prepare for their first days of school, relieve any stress, and learn how to ride a school bus safely,” said Director Milt Waye.

The training featured six bus training stations:

- Loading and unloading – how to get on and off the bus
- Bus stop crossing – how to cross the road to get on or off the bus
- Danger Zone – where the bus driver might not be able to see you
- Bus behavior – the rules for a safe bus ride
- Safety drill – emergency evacuation procedures
- There was also a wheelchair-accessible bus available for demo

The event was well-attended by enthusiastic kids and their parents.
